Proposed Total Water Fixture Units		0.0	
Proposed Total Sewer Fixture Units		_	0.0
Proposed Equivalent Dwelling Units (Water)	0.0	_	
Proposed Equivalent Dwelling Units (Sewer)	0.00		

Fire protection sprinkler flow rate (gpm)	gpm
Peak residential/ domestic service flow rate (gpm)	gpm
Total water flow rate (gpm)	gpm

Note:

- 1. Fire protection sprinkler flow + peak residential/ domestic service flow = total water flow
- 2. Residential/ Domestic service peak flow rate from water fixture unit count or MCWD accepted plans.
- 1. In completing the Residential Connection Form and Permit Application, the undersigned acknowledges that any discrepancy or mistake may cause rejection or delay in processing the application. Additionally, the undersigned is responsible for accurately accounting for all water fixtures. If the fixture unit count changes without notification to the District, or if a difference in fixtures is documented upon official inspection, water permits for the property may be cancelled. In addition, water fixtures installed without a water permit may be cause for interruptions of the water service to the site, additional fees and penalties the imposition of a lien on the property, and deduction from the local jurisdiction's allocation.
- 2.In completing the Residentail Connection Form and Permit Application, the undersigned acknowledges that MCWD Code 6.08.040, Paragraph D states "If connection is not made to the District's water or recycled water system within one year from the date a capacity charge is paid after the effective date of this provision (August 8, 2007), the difference between the amount of the capacity charge paid and the amount of the revised capacity charge in effect at the time of the connection shall be paid to the District before the connection is installed".
- 3.In completing the Residentail Connection Form and Permit Application, the undersigned acknowledges that MCWD Code 6.12.020, Paragraph D states "If connection is not made to the District's sewer system within one year from the date a capacity charge is paid after the effective date of this provision (August 8, 2007), the difference between the amount of the capacity charge paid and the amount of the revised capacity charge in effect at the time of the connection shall be paid to the District before the connection is installed".

I certify, under the penalty of perjury, that the information provided on the Water Release Form & Permit application is to my knowledge correct, and the
information accurately reflects the changes affecting water presently planned for this property

information accurately reflects the changes affecting water presently planned for the	his property	
Signature of Owner/Agent	Date	

This form expires on the same date as any discretionary or building permits issued for this project by the city or county expire.
