To the Board of Directors and Citizens
Marina Coast Water District
Marina, California

It is a pleasure to submit the Marina Coast Water District's (MCWD or District) Annual Comprehensive Financial Report (ACFR) for the fiscal years ended June 30, 2024, and 2023. The ACFR gives an assessment of the District's financial condition, informs readers about District services, gives details of infrastructure replacement projects, discusses current issues, and provides financial and demographic trend information.

The California Government Code requires an annual independent audit of MCWD's financial statements by a Certified Public Accountant (CPA). The District's financial statements have been audited by Chavan and Associates LLP, Certified Public Accountants. The auditor's opinion is included in the financial section of this ACFR.

The ACFR is believed to be accurate in all material respects and is presented in a manner designed to clearly present the financial position, the changes in financial position, and cash flows for the District. All disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activity have been included. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. While the independent auditors have expressed that MCWD's financial statements are presented in conformity with the U.S. generally accepted accounting principles (GAAP), responsibility for both the accuracy of the presented data and completeness and fairness of the presentation, including all disclosures, rests with the District.

District Overview

The Marina Coast Water District (the "District") is a county water district formed in 1960 under the provisions of the County Water District Law. The District provides water (including recycled water) and wastewater services to customers within the service area of the District. The District serves approximately 41,000 residents through more than 11,000 customer accounts and approximately 20,500 connections in its Marina and Ord service areas. The District currently

pumps all of its supply or approximately 3,365 Acre Feet of potable water (both Marina and Ord Community systems) annually from groundwater wells.

The District's Recycled Water System has approximately 13 miles of pressurized pipe and one (1) 2-million-gallon storage tank. The District began delivering recycled water to its first account, Bayonet and Black Horse Golf Course in November 2022. In FY 2023, the District delivered over 195 acre-feet of irrigation water, and in FY 2024, it delivered 394 acre-feet to Bayonet and Black Horse Golf Course.

The District owns and operates twenty (20) sewer lift stations, more than 162 miles of gravity pipeline, and 7 miles of force main to convey in excess of two million gallons per day of sewage to the Monterey One Water Treatment Plant. Monterey One Water (M1W), operates the regional wastewater treatment plant. M1W is a joint powers agency formed in 1972, which the District is a member. The District owns 4.22 MGD of capacity and participates as a share member based on the District's service population. Sewage is conveyed to an interceptor and measured at the M1W pump station for Central Marina and the Flume structure for Ord Community.

The District's water system encompasses approximately 234 miles of water pipeline, and owns nine (9) production wells (8 of which are active) with an estimated capacity of approximately 20 million gallons of potable water per day ("MGD"). District water storage includes eleven (11) water storage tanks with a combined capacity of eleven million (11) gallons and six (6) booster pump stations. In addition, 34 monitoring wells are strategically located throughout the District to monitor water quality and groundwater levels in the aquifers that are the source for the District's potable water supply. All wells are sampled to identify the presence of chemicals, the threat of saltwater intrusion, and to monitor water levels.

The District has an authorized staff of 49 full-time employees providing services to its six (6) service area funds: Marina Water, Marina Sewer, Ord Water, Ord Sewer, Recycled Water, and Groundwater Sustainability Agency (GSA).

Governance

MCWD is a public agency (special district) governed by a five-member independently elected Board of Directors (Board) serving staggered four-year (4) terms elected from within the District's service area. The District began service in 1958. The Ord Community was annexed into the District's service area in July 2019 and as such was able to participate in the November 2020 election. Annually, a President and Vice President are chosen among the Board members. MCWD operates under a Board-Manager form of government. The Board of Directors appoints the General Manager who is responsible for the administration of the District. The General Manager organizes and directs District activities in accordance with the Board's policies.

The Board meets in a regular session on the third Monday of each month. Regular meetings are held at 6:00 p.m. at the Imjin Office Park, 920 2nd Avenue Suite A, Marina, California. Board meetings are open to the public.

Budget Process

Annually, the District prepares and adopts an operating budget and updates its five-year Capital Improvement Program (CIP). Both serve as the District's financial planning and fiscal control. Budgets are adopted on a basis consistent with governmental GAAP. Budgetary controls are set at the department level and are maintained to ensure compliance with the budget approved by the Board of Directors. The District's budget is a detailed operating plan that identifies estimated costs in relation to estimated revenues. The budget includes the projects, services, and activities to be carried out during the fiscal year and the estimated revenue available to finance these operating and capital costs. The budget represents a process wherein policy decisions made by the Board of Directors are adopted, implemented, and controlled. Budget control is maintained through the use of project codes and account appropriations. Actual expenditures are then compared to these appropriations on a monthly basis. The General Manager has the discretion to transfer appropriations between activities. Board approval is required for any overall increase in appropriations or changes to the Capital Improvement Program.

Long-term Financial Planning

The District engaged Hilderbrand Consulting LLC to conduct a comprehensive five-year rate study and financial plan. The 2024 Rate Study also includes a review and update of the cost allocation plan between the District's various cost centers. Between the two service areas there are six "cost centers": Marina Water, Ord Water, Marina Sewer, Recycled Water and the Groundwater Sustainability Agency (GSA).

Hilderbrand Consulting also completed a formal Cost Allocation Plan, documenting the review of direct and indirect cost allocations across cost centers. Their findings indicate that the allocation methodology and foundational data are both reasonable and appropriate. Hilderbrand recommends that the District continue to review and update these allocation factors regularly to maintain accuracy and equity.

Major Initiatives

The District completed its water, sewer, and recycled water master plans in May 2020. These plans are long-term planning documents that provide hydraulic models of the District's existing systems used to evaluate the capacity of the existing systems and recommend improvements. The plans also assist in determining future water and recycled water demands and supply requirements for the District and identify the water facilities needed to produce, deliver, store and transport this supply to its customers as well as determine future sewer flows for the District and identify sewer facilities needed to collect and convey sewer flows to the existing District discharge locations. The full version of each plan can be viewed on the District's website www.mcwd.org.

The Marina Coast Water District's Marina and Ord Community service areas overlie portions of the Monterey Subbasin, the 180/400 Foot Aquifer Subbasin, and part of the Seaside Adjudicated Basin. Three of the District wells are located in Marina and five (5) wells are in the Ord Community. The California Department of Water Resources (DWR) granted the District exclusive Groundwater

Sustainability Agency (GSA) status within its jurisdictional boundaries within the Monterey Subbasin and the 180/400 Subbasin. Since the District has been determined to be an exclusive GSA in both the Monterey Subbasin and the 180/400 Subbasin, the MCWDGSA engaged in the development of Groundwater Sustainability Plans (GSP) for the entirety of these two Subbasins, in coordination with other GSAs within these Subbasins. The 180/400 Aquifer Subbasin GSP was prepared on January 31, 2020, and the Monterey Subbasin GS plan was prepared on January 31, 2022. Both plans were subsequently approved by the California Department of Water Resources. MCWDGSA is currently implementing these plans to achieve sustainability for both basins beginning in 2040.

Internal Control

District management is responsible for the establishment and maintenance of the internal control structure that ensures the assets of the District are protected from loss, theft, or misuse. The internal control structure also ensures adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The District's internal control structure is designed to provide reasonable assurances that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

Investment Policy

The Board of Directors annually adopts an Investment Policy that conforms to California State Law, District ordinances and resolutions, prudent money management, and the “prudent person” standards. The objectives of the Investment Policy are safety, liquidity, and yield. District funds are can be invested in the State Treasurer’s Local Agency Investment Fund (LAIF), Certificates of Deposits, United States Treasury Securities, and guaranteed investment contracts (GIC).

Water Rates and District Revenues

In April 2024, the District adopted new rates and charges for its water system, wastewater system and recycled water system. The rates and charges are based on a rate study and final plan prepared by Hilderbrand Consulting, LLC and delivered to the District in April 2024 (the “2024 Rate Study”) that covers a 5-year period.

The new rates and charges were adopted by the Board of Directors on June 17, 2024, after conducting a notification process under Proposition 218. Additional details on the new rates and charges are described under “– Water Enterprise of the District” and “– Wastewater Enterprise of the District.”

District policy direction ensures that all revenues from user charges generated from District customers must support all District operations. The District projects substantial capital improvements to the Water Enterprise for existing and future users in the amount of approximately \$92.9 million over the next five Fiscal Years. The District expects that such capital improvements will be funded by facility capacity fees, grants, loans, the net proceeds of the Certificates, and Net

Revenues remaining after the payment of the Installment Payments and debt service on the prior parity debt, any additional parity debt, and any other debt of the District. Such capital improvements include pipeline improvements, replacement of booster pumps, lift station enhancements, construction of reservoir tanks, acquisition of emergency generators at key well sites, booster stations and sewer pumping facilities to maintain operation during power outages, demolition of existing corporation yard and construction of new yard, well rehabilitation.

Independent Audit

State Law and Bond covenants require the District to obtain an annual audit of its financial statements by an independent certified public accountant. The accounting firm Chavan and Associates LLP has conducted an audit of the District's financial statements. The audit was conducted in accordance with auditing standards generally accepted in the United States of America. The firm's report has been included in the financial section of this report.

Other References

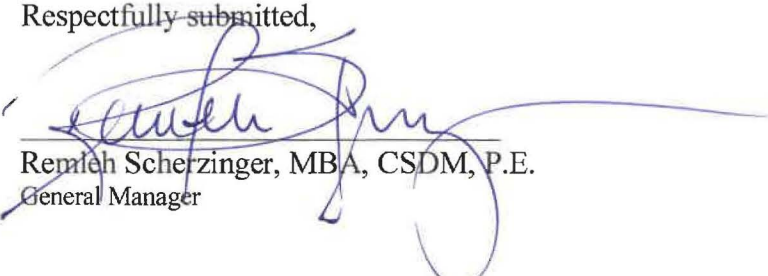

More information is contained in the District's management discussion and analysis and the notes to the basic financial statements found in the financial section of this report.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its ACFR for the fiscal year ended June 30, 2023. This was the sixteenth consecutive year that the District has received this prestigious award. In order to be awarded a Certificate of Achievement, the District had to publish an easily readable and efficiently organized ACFR that satisfied both generally accepted accounting principles and applicable legal requirements.

Preparation of this report was accomplished by the combined efforts of District staff. We appreciate the dedicated efforts and professionalism that these staff members contribute to the service of the District's customers. We would also like to thank the members of the Board of Directors for their continued support in the planning and implementation of the Marina Coast Water District's fiscal policies.

Respectfully submitted,

Remleh Scherzinger, MBA, CSDM, P.E.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
of the Marina Coast Water District
Marina, California

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of the business-type activities of the Marina Coast Water District (the "District"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Marina Coast Water District, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

District management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAGAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of contributions for pension plans, the schedule of proportionate share of the net pension liability, and the schedule of changes in total OPEB liability, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of

financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Combining Schedule of Net Position - Proprietary Funds, the Combining Schedule of Revenues, Expenses, and Changes in Net Position - Proprietary Funds, and the Combining Schedule of Cash Flows - Proprietary Funds are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Schedule of Net Position – Proprietary Funds, the Combining Schedule of Revenues, Expenses, and Changes in Net Position – Proprietary Funds, and the Combining Schedule of Cash Flows – Proprietary Funds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Comparative Information

The Organization's basic financial statements and related notes for the year ended June 30, 2023, were audited by another auditor who expressed an unmodified opinion on those statements on October 12, 2023. Our opinion has not been modified with respect to this matter.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Page Intentionally Left Blank

MARINA COAST WATER DISTRICT
Management's Discussion and Analysis
June 30, 2024 and 2023

This section of the Marina Coast Water District's (District) financial statements presents an analysis of the District's financial performance during the fiscal years ended June 30, 2024 and 2023. This information is presented in conjunction with the transmittal letter in the Introductory Section, and with the basic financial statements and related notes, which follow this section.

Overview of the District's Financial Statements

The financial statements consist of the following three parts: Management's Discussion and Analysis, Basic Financial Statements and related Notes, and Supplementary Information.

Basic Financial Statements

The financial statements of the District report information utilizing the full accrual basis of accounting. The financial statements conform to accounting principles generally accepted in the United States of America.

The Statement of Net Position includes information on the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, which provides information about the nature and amounts of investments in resources (assets) and the obligations to District creditors (liabilities).

The Statement of Revenues, Expenses, and Changes in Net Position identifies the District's revenues and expenses for the fiscal year. This statement provides information on the District's operations for the fiscal year and can be used to determine whether the District has recovered all of its actual and projected costs through user fees and other charges.

The Statement of Cash Flows provides information on the District's cash receipts, cash payments and changes in cash resulting from operations, investments, and financing activities. From the Statement of Cash Flows, the reader can obtain information on the source and use of cash and the change in the cash and cash equivalents balance for the fiscal year.

Notes to the Basic Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the basic financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain Required Supplementary Information concerning the District's progress in funding its obligation to provide pension benefits and post-employment benefits to its employees.

MARINA COAST WATER DISTRICT
Management's Discussion and Analysis
June 30, 2024 and 2023

Supplementary Information

Proprietary fund schedules are presented in Supplementary Information to provide additional details on the financial condition of each fund.

Financial Analysis of the District

The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position provide an indication of the District's financial condition and also indicate whether the financial condition of the District improved over time. The District's net position reflects the difference among assets, deferred outflows of resources, liabilities, and deferred inflows of resources. An increase in net position over time typically indicates an improvement in financial condition. However, considerations should be made for other non-financial factors such as changes in economic conditions, population growth, new or changed government legislation, such as changes in Federal and State water quality standards.

MARINA COAST WATER DISTRICT
Management's Discussion and Analysis
June 30, 2024 and 2023

Financial Highlights for Fiscal Years 2024 and 2023

- At June 30, 2024, the District's total assets and deferred outflows of resources exceeded the total liabilities and deferred inflows of resources by \$227.0 million (net position), which is an increase of \$10.1 million or 4.6% from the 2023 fiscal year-end balance. At June 30, 2023, the District's total assets and deferred outflows of resources exceeded the total liabilities and deferred inflows of resources by \$217.0 million (net position), which is an increase of \$18.3 million or 9.2% from the 2022 fiscal year-end balance.
- The total long-term liabilities for the current fiscal year increased by \$0.7 million or 1.2% due to an increase of \$3.0 million in California State Revolving Fund Loan offset by \$2.3 million in annual debt service payments. Prior year increased by \$1.4 million or 2.7% due to an increase of \$3.0 million in California State Revolving Fund Loan offset by annual debt service payments.
- For fiscal year 2024, capital assets increased by \$1.5 million or 0.6% primarily due to the completion of the Flygt Pump Replacement Project, PLC Replacement Project, Ord Village Lift Station and Force Main Project, and Gigling Force Main Project. For fiscal year 2023, capital assets increased by \$9.8 million or 4.2% primarily due to the completion of the RUWAP Distribution Main and Booker Lift Station Improvements along with continued construction on the A1/A2 Reservoirs and B/C Zones Booster Pump Station Project.

MARINA COAST WATER DISTRICT
Management's Discussion and Analysis
June 30, 2024 and 2023

Net Position

A summary of the District's Statement of Net Position is presented below. Balances shown include interfund eliminations. Additional details are provided in the proprietary fund schedules in Supplementary Information.

Condensed Statements of Net Position

	June 30			Change between		Change between	
	2024	2023	2022	2024 and 2023		2023 and 2022	
Assets:							
Current assets	\$ 32,115,714	\$ 17,052,329	\$ 14,207,847	\$ 15,063,385	88.3%	\$ 2,844,482	20.0%

Total Liabilities	69,990,857	68,090,335	69,835,817	1,900,522	2.8%	(1,745,482)	-2.5%
Deferred inflows	4,719,777	4,227,546	5,921,905	492,231	11.6%	(1,694,359)	-28.6%
Net Position:							
Net investment in capital assets	188,419,442	190,768,520	183,338,088	(2,349,078)	-1.2%	7,430,432	4.1%
Restricted for capacity fees	19,034,668	19,824,027	12,906,699	(789,359)	-4.0%	6,917,328	53.6%
Restricted for debt service	580,020	229,343	171,828	350,677	152.9%	57,515	33.5%
Unrestricted (deficit)	19,011,147	6,142,334	2,219,789	12,868,813	209.5%	3,922,545	176.7%
Total Net Position	\$ 227,045,277	\$ 216,964,224	\$ 198,636,404	\$ 10,081,053	4.6%	\$ 18,327,820	9.2%

As noted earlier, net position may serve over time as a useful indicator of a district's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$227.0 million, \$217.0 million and \$198.6 million as of June 30, 2024, 2023 and 2022, respectively.

One of the largest portions of the District's net position (83.0%, 87.9% and 92.4% as of June 30, 2024, 2023 and 2022, respectively) reflects the District's net investment in capital assets. The District uses these capital assets to provide services to customers within the District's service area; consequently, these assets are not available for future spending.

The District showed a positive balance in its unrestricted net position of \$19.0 million, \$6.1 million, \$2.2 million as of June 30, 2024, 2023 and 2022, respectively.

MARINA COAST WATER DISTRICT
Management's Discussion and Analysis
June 30, 2024 and 2023

Revenues

The District finances its water sales and wastewater collection operations through user fees and other income. Total revenue for fiscal year 2024 was \$36.5 million, down \$5.1 million or 12.3% from prior year. Fiscal year 2023 included donations from developers on completed projects totaling \$2.6 million. There were no donations in the current year and there was also a reduction in capacity fees collected from developer projects. This was offset by an increase in interest earned from high-yield investments and an increase in water sales revenue due to an increase in rates and an additional 500 new accounts. Total revenue for fiscal year 2023 was \$41.6 million, up \$16.7 million or 67.2% from fiscal year 2022 as a result of developer donations from completed projects and an increase in capacity fees.

Expenses

Total expenses for fiscal year 2024 was \$26.4 million, an increase of \$3.1 million or 13.5% from prior year. Total expenses for fiscal year 2023 was \$23.3 million, an increase of \$4.9 million or 26.9% from fiscal year 2022. In the current year, Operations and Maintenance expenses increased by \$0.9 million or 18.5% primarily due to unexpected emergency repairs and an increase in wages and benefits from the annual cost of living allowance (COLA). Engineering expenses increased by \$0.9 million or 52.1% because of information technology costs being transitioned from the Administration department to the Engineering department along with wage and benefit increases from the annual COLA. In fiscal year 2023, Administration expenses increased by \$4.1 million or 75.8% primarily due to an increase in legal fees, water source fees, consulting services, pension and other post-employment benefit expenses.

Capital Assets

At the end of fiscal years 2024, 2023 and 2022, the District's capital assets were \$242.8 million, \$241.3 million and \$231.5 million, respectively, (net of accumulated depreciation and amortization). Capital assets include land, water/wastewater rights, easements, transmission and distribution systems, wells, tanks, reservoirs, pumps, buildings and structures, equipment, vehicles, and construction-in-progress. Current year increase is due to the completion of the Flygt Pump Replacement Project, PLC Replacement Project, Ord Village Lift Station and Force Main Project, and Gigling Force Main Project along with equipment purchases, such as the CCTV Camera System, two 2023 Hyundai IONIQ5 SUVs and a 2023 CAT Electric Forklift. For fiscal year 2023, capital assets increased primarily due to the completion of the RUWAP Distribution Main and Booker Lift Station Improvements along with continued construction on the A1/A2 Reservoirs and B/C Zones Booster Pump Station Project. Equipment purchases in the prior year included two 2022 Ford F650 service trucks for water and sewer, five replacement work trucks for operations and maintenance, a 2022 John Deere excavator, and replacement generators for lift station sites.

Changes in capital assets were as follows:

Capital Assets

MARINA COAST WATER DISTRICT
Management's Discussion and Analysis
June 30, 2024 and 2023

Long-Term Liabilities

As of June 30, 2024, the District had \$55.4 million outstanding in long-term liabilities compared to \$54.8 million as of June 30, 2023, and \$53.3 million as of June 30, 2022. Revenue certificates of participation in the amount of \$42.3 million were issued in August 2006 to fund costs associated with several major capital improvement projects and were also used to refund the District's existing outstanding debt obligations. These bonds were refinanced with the issue of the 2015 revenue bonds as an advanced refunding and were called on June 1, 2016. In December 2019, the District issued 2019 Enterprise Revenue Certificates of Participation in the amount of \$17.7 million to finance required capital improvement projects. The District has covenanted that it will fix, prescribe, and collect rates, fees, and charges for use of the District's water system during each fiscal year which is at least sufficient to yield in each fiscal year net revenues equal to 125% of the debt service for such fiscal year. The 2015 revenue refunding bonds were assigned a rating of "AA-". The 2019 Enterprise Revenue Certificates of Participation were also assigned an "AA-" rating. In January 2017, the District converted the \$2.8 million BLM construction loan into an Installment Purchase Agreement with a 20-year fixed rate. On January 25, 2018, the District entered into a construction installment sale agreement and grant with the California State Revolving Fund Loan Program with a maximum amount of \$10,513,217 at an interest rate of 1.8% per annum. On June 27, 2018, the District entered into a second construction installment sale agreement and grant with the California State Revolving Fund Loan Program for the construction of the RUWAP distribution system with a maximum amount of \$11,439,582 at an interest rate of 1.8% annum.

Changes in long-term liability amounts were as follows:

Economic Factors and Next Year's Budget and Rates

The Board of Directors adopted the District's 2024-2025 Marina and Ord Community budgets and rates on June 17, 2024. The approval of the budget provides funding for the District's operating, capital, and debt service costs for the 2024-2025 fiscal year.

The following Water and Sewer Rate Structures are based on a rate study conducted by Hilderbrand Consulting which was presented to the District in April 2024 and approved by the Board on June 17, 2024.

Water Rate Structure Beginning FY 2024-2025

- Fixed Monthly Service Charge: The fixed monthly charge is determined by the size of the water meter and is consistent across all customers.
- Water Consumption Rate: Based on actual water usage, this rate reflects the volume of water consumed by each customer.
- Uniform Consumption Charge: All non-residential and multifamily customers (excluding single-family residences) will transition to a uniform consumption charge.

Sewer Rate Structure Beginning FY 2024-25

The District will implement a new sewer rate structure effective fiscal year 2024-2025, consisting of a 50/50 split between flow-based and fixed-cost charges for both non-residential and residential customers. This approach is designed to align costs more closely with actual usage, promoting fair and equitable billing.

Residential customers:

- Flow-Based Charge (50%): Flow-based charge will be based on the customer's average water usage during the winter months (December, January, and February). Winter water usage is used as an estimate for indoor water use since outdoor watering is minimal during this period. Each residential account's indoor water usage value will be updated annually based on the previous winter's data. For new accounts without water usage history, a temporary default value of 5 HCF per month will be used, reflecting the current average for a single-family home.
- Fixed-Cost Charge (50%): The fixed charge recovers costs that the sewage collection system incurs regardless of increased or decreased sewage flow into the system

Non-Residential customers:

- Flow-Based Charge (50%): This charge will be based on the customer's actual monthly water usage.
- Fixed-Cost Charge (50%): The fixed charge recovers costs that the sewage collection system incurs regardless of increased or decreased sewage flow into the system.

Concluded

The accompanying notes are an integral part of these financial statements.

Marina Coast Water District
Index to Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

The notes to the basic financial statements include a summary of significant accounting policies and other information considered essential to fully disclose and fairly present the transactions and financial position of the District, as follows:

	Page
Note 1 – Summary of Significant Accounting Policies	36
Note 2 – Cash and Investments	47
Note 3 – Receivables.....	50
Note 4 – Leases Receivable	51
Note 5 – Capital Assets	52
Note 6 – Long-Term Liabilities	54
Note 7 – Defined Benefit Pension Plan.....	61
Note 8 – Other Post Employment Benefits	66
Note 9 – Risk Management.....	69
Note 10 – Commitments and Contingencies.....	70

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the Reporting Entity

The Marina Coast Water District (the “District”) is organized for the purpose of providing water distribution services as well as wastewater collection for the residents and businesses of the City of Marina and the former Fort Ord (Ord Community) area. The District's former name was Marina County Water District and in July 1993 the name was changed by the Board of Directors (Board) to Marina Coast Water District.

Basis of Presentation

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The Governmental Accounting Standards Board (“GASB”) is the accepted standard setting body for governmental accounting financial reporting purposes.

The accounts of the District are organized and operated on a fund basis. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred outflows/inflows of resources, net position, revenues and expenses.

All activities of the District are accounted for within proprietary (enterprise) funds. Proprietary funds are used to account for operations that are (a) financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through users charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or operating income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The District presents the following funds in the accompanying Supplementary Information:

- The **Marina Water fund** accounts for operations of the water system within the central Marina service area.
- The **Marina Sewer fund** accounts for operations of the wastewater collection system within the central Marina service area.
- The **Ord Water fund** accounts for operations of the water system within the former Fort Ord service area.
- The **Ord Sewer fund** accounts for operations of the wastewater collection system within the former Fort Ord service area.
- The **Recycled Water fund** accounts for operations of the recycled or augmented water system within the District service area.
- The **Groundwater Sustainability Agency fund** accounts for operations of the Groundwater Sustainability Agency within the District jurisdictional boundaries within the Monterey Subbasin and the 180/400 Subbasin.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services, and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District are charges to customers for sales and services. The District's operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as investment earnings, result from nonexchange transactions or ancillary activities, in which the District gives (receives) value without directly receiving (giving) equal value in exchange.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied. The accompanying financial statements are accounted for using the flow of economic resources measurement focus, utilizing full accrual accounting. With this measurement focus, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the enterprise are recorded on its statement of net position, and under the full accrual basis of accounting, all revenues are recognized when earned and all expenses, including depreciation, are recognized when incurred.

Unearned revenue arises when assets are received before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are recorded as deferred inflows from unavailable resources.

Deferred Outflows and Deferred Inflows of Resources

In addition to assets, the Statement of Net Position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time.

Statement of Net Position

The statement of net position is designed to display the financial position of the District. The District's net position is classified into three categories as follows:

- Net Investment in Capital Assets - This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of investment in capital assets, net of related debt. Deferred outflows

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position, as applicable.

The following summarizes the District's net investment in capital assets for the last two years:

	2024	2023
Capital assets, net	\$ 242,800,702	\$ 241,332,954
2015 Series A Bonds	(23,377,221)	(24,703,545)
2019 Revenue Bonds	(17,937,219)	(18,359,708)
Unspent 2019 Bond proceeds	480,360	4,707,952
Unspent grant funds	1,043,435	-
CWSRF Loan - Transmission	(3,808,954)	(3,912,925)
WRFP Prop 1 Loan - Transmission	(1,116,515)	(1,147,644)
CWSRF Loan - Distribution	(4,750,509)	(3,831,930)
WRFP Prop 1 Loan - Distribution	(1,990,477)	(90,307)
Santa Cruz Bank Installment Loan	(2,152,726)	(2,261,614)
Leases payable	(195,878)	(291,622)
SBITAs payable	(109,032)	(162,008)
Retention payable	(11,837)	(21,418)
Deferred gain on refunding debt	(454,687)	(489,665)
Net investment in capital assets	<u>\$ 188,419,442</u>	<u>\$ 190,768,520</u>

- **Restricted** - This component of net position consists of constraints placed on an asset's use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or law and regulations of other governments, and reduced by liabilities and deferred inflows of resources related to those assets. It also pertains to constraints imposed by law or constitutional provisions or enabling legislation. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.
- **Unrestricted** - This component of net position consists of the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position. Amounts included as unrestricted net position are available for designation for specific purposes established by the District's Board of Directors.

Statement of Revenues, Expenses, and Changes in Net Position

Operating revenues, such as charges for services (water sales, wastewater sales, and other services and fees) result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives approximately equal value. Nonoperating revenues, such as interest earned, result from nonexchange transactions or ancillary activities in which the District gives (receives) value without directly receiving (giving) approximately equal value.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

Operating expenses include the cost of sales and services, administration, operations and maintenance, laboratory, conservation, engineering, water resources and depreciation. All expenses not meeting these categories are reported as nonoperating.

Budgets and Budgetary Accounting

Budget integration is employed as a management control device. Budgets are formally adopted by the Board of Directors and take effect starting July 1 of each year. The budgets are used as a management tool and are not a legal requirement.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The following time frames were used for pension reporting:

Valuation Date	June 30, 2022
Measurement Date	June 30, 2023
Measurement Period	July 1, 2022 to June 30, 2023

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period.

Other Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense information about the fiduciary net position of the District Retiree Benefits Plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

GAAP required that the reported results must pertain to liability and fiduciary net position information within certain defined timeframes. The following timeframes were used for OPEB reporting:

Valuation Date	June 30, 2022
Measurement Date	June 30, 2023
Measurement Period	July 1, 2022 to June 30, 2023

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. The first amortized amounts are recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The amortization period differs depending on the sources of gain or loss. The difference between projected and actual earnings is amortized on a straight-line basis over 5 years. All other amounts are amortized on a straight-line basis over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) at the beginning of the measurement period.

Cash and Investments

In accordance with GASB Statement No. 40, *Deposit and Investment Disclosures (Amendment of GASB No.3)*, certain disclosure requirements for deposits and investment risks were made in the areas of interest rate risk and credit risk. The credit risk disclosures include the following components: overall credit risk, custodial credit risk and concentrations of credit risk. In addition, other disclosures are specified including use of certain methods to present deposits and investments, highly sensitive investments, credit quality at year-end and other disclosures.

Investments are recorded at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

The following is a summary of the definition of fair value:

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. In determining this amount, three valuation techniques are available:

- Market approach - This approach uses prices generated for identical or similar assets or liabilities. The most common example is an investment in a public security traded in an active exchange such as the NYSE.
- Cost approach - This technique determines the amount required to replace the current asset. This approach may be ideal for valuing donations of capital assets or historical treasures.
- Income approach - This approach converts future amounts (such as cash flows) into a current discounted amount.

Each of these valuation techniques requires inputs to calculate a fair value. Observable inputs have been maximized in fair value measures, and unobservable inputs have been minimized.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

Cash Equivalents

For purposes of the statement of cash flows, all highly liquid investments with original maturities of three months or less are considered cash equivalents.

Accounts Receivable

The District extends credit to customers in the normal course of operations and accounts for potential losses using the allowance method. Accounts receivable consists of utility customer receivables and receivables from agreements with local developers to provide water from its desalination plant.

Management evaluates all accounts receivable and if it is determined that they are uncollectible they are written off as bad debt expense. Also, management provides an allowance for uncollectible accounts related to utility customers and local developers.

Inventories

Inventories are stated at cost, determined on a first-in, first-out basis.

Restricted Assets

Restricted assets are financial resources generated for a specific purpose such as construction of capital assets and financing of debt obligations. These assets are for the benefit of a distinct group and as such are legally or contractually restricted.

Lessor

The District is a lessor for a lease of office space. The District recognizes lease receivable and deferred inflows of resources in the financial statements. Variable payments based on future performance of the lessee or usage of the underlying asset are not included in the measurement of the lease receivable.

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflows of resources are initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflows of resources are recognized as revenue over the life of the lease term in a systematic and rational method.

Key estimates and judgments include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Capital Assets

The District's capital assets are stated at historical cost or estimated historical cost when original cost was not available, net of accumulated depreciation or amortization. Contributed assets are recorded at their acquisition value at the date of donation. The District's policy is to capitalize all capital assets with costs exceeding a minimum threshold of \$5,000.

Depreciation and amortization is recorded using the straight-line method over the estimated useful lives of the capital assets which range from 30 to 80 years for the plant and pipelines, and 5 to 10 years for other equipment.

The cost of routine maintenance and repairs that do not increase the value or extend the life of a capital asset are not capitalized but are expensed.

Subscription-Based Information Technology Arrangements (SBITAs)

The District has a policy to recognize a subscription liability and a right-to-use subscription asset (subscription asset) in the financial statements. The District recognizes subscription liabilities with an initial, individual value of \$10,000 or more with a subscription term greater than one year. Variable payments based on future performance of the District, usage of the underlying IT asset, or number of user seats are not included in the measurement of the subscription liability, rather, those variable payments are recognized as outflows of resources (expenses) in the period the obligation for those payments is incurred.

At the commencement of a SBITA, the District initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made.

Subscription assets are recorded at the amount of the initial measurement of the subscription liabilities, less any payments made to the SBITA vendor before the commencement of the subscription term, and capitalizable initial implementation cost, less any incentives received from the SBITA vendor at or before the commencement of the subscription term.

- **Preliminary Project Stage:** Outlays are expensed as incurred.
- **Initial Implementation Stage:** Outlays are capitalized as an addition to the subscription asset.
- **Operation and Additional Implementation Stage:** Outlays are expensed as incurred unless they meet specific capitalization criteria.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

Upon adoption, the District elected to exclude the capitalizable outlays associated with the initial implementation stage and the operation and additional implementation stage that were incurred prior to the implementation of this Statement in the measurement of subscription assets as of July 1, 2022.

Subscription assets are reported in capital assets and subscription liabilities are reported with long-term liabilities on the statement of net position. Subscription assets are amortized using the straight-line method over the shorter of the subscription term or the useful life of the underlying IT asset, unless the subscription contains a purchase option that the District has determined is reasonably certain of being exercised. In this case, the subscription asset is amortized over the useful life of the underlying IT asset.

Key estimates and judgments related to SBITA include how the District determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments.

- The District uses the interest rate charged by the SBITA vendor as the discount rate. When the interest rate charged by the SBITA vendor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for SBITA.
- The subscription term includes the noncancellable period of the SBITA. Subscription payments included in the measurement of the subscription liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its subscription liability and will remeasure the subscription assets and liabilities if certain changes occur that are expected to significantly affect the amount of the subscription liabilities.

Lessee Leases

The District has a policy to recognize a lease liability and a right-to-use lease asset (lease asset) in the financial statements. The District recognizes lease liabilities with an initial, individual value of \$5,000 or more with a lease term greater than one year. Variable payments based on future performance of the lessee or usage of the underlying asset are not included in the measurement of the lease liability.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made.

Lease assets are recorded at the amount of the initial measurement of the lease liabilities, and modified by any lease payments made to the lessor at or before the commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term along with any initial direct costs that are ancillary charges necessary to place the lease assets into service. Lease assets are amortized using the straightline method over the shorter of the lease term or the useful life of the underlying asset, unless the lease contains a purchase option that the District has

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

determined is reasonably certain of being exercised. In this case, the lease asset is amortized over the useful life of the underlying asset.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure any lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported as right to use along with other capital assets and lease liabilities are reported with long-term liabilities on the statement of net position.

Long-Term Liabilities

Long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported with applicable bond premium and discounts are reported as noncurrent assets along with any insurance payments made during issuance of the bond. Bond issuance costs, other than prepaid insurance, are expensed in the period incurred.

Compensated Absences

All earned vacation (accumulated up to 260 hours), holiday, and compensation time is payable upon termination or retirement and accrued as compensated absences.

Interfund Transactions

Interfund transactions may result from loans or transfers. “Due to” and “due from” balances are generally used to reflect short-term interfund receivables and payables where as “advance to” and “advance from” balances are for long-term. All interfund transactions are eliminated in the Statements of Net Position.

Property Taxes

Property taxes in California are levied in accordance with Article XIII A of the State Constitution at 1% of countywide assessed valuations. This levy is allocated pursuant to state law to the appropriate units of local governments.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

Property tax revenue is recognized in the fiscal year in which taxes are levied. Taxes are collected by Monterey County; however, the District does not currently receive tax revenue.

Accounting Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Accounting and Reporting Changes

GASB Statement No. 100, Accounting Changes and Error Corrections—an amendment of GASB Statement No. 62

This Statement defines *accounting changes* as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes. This Statement also prescribes the accounting and financial reporting for (1) each type of accounting change and (2) error corrections in previously issued financial statements. This statement did not have a material impact on the financial statements.

Upcoming Accounting and Reporting Changes

Management will continue to analyze its accounting practices to determine the potential impact of the following recent GASB Statements on the District's financial statements:

GASB Statement No. 101, Compensated Absences

This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. Leave is attributable to services already rendered when an employee has performed the services required to earn the leave. Leave that accumulates is carried forward from the reporting period in which it is earned to a future reporting period during which it may be used for time off or otherwise paid or settled. In estimating the leave that is more likely than not to be used or otherwise paid or settled, a government should consider relevant factors such as employment policies related to compensated absences and historical information about the use or payment of compensated absences. However, leave that is more likely than not to be settled through conversion to defined benefit postemployment benefits should not be included in a liability for compensated absences.

This Statement requires that a liability for certain types of compensated absences - including parental leave, military leave, and jury duty leave—not be recognized until the leave commences. This Statement also requires that a liability for specific types of compensated absences not be recognized

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

until the leave is used. A liability for leave that has been used but not yet paid or settled should be measured at the amount of the cash payment or noncash settlement to be made. Certain salary-related payments that are directly and incrementally associated with payments for leave also should be included in the measurement of the liabilities.

The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter.

GASB Statement No. 102, *Certain Risk Disclosures*

This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued.

If a government determines that those criteria for disclosure have been met for a concentration or constraint, it should disclose information in notes to financial statements in sufficient detail to enable users of financial statements to understand the nature of the circumstances disclosed and the government's vulnerability to the risk of a substantial impact. The disclosure should include descriptions for (1) the concentration or constraint (2) each event associated with the concentration or constraint that could cause a substantial impact if the event had occurred or had begun to occur prior to the issuance of the financial statements (3) actions taken by the government prior to the issuance of the financial statements to mitigate the risk. The requirements of this Statement are effective for fiscal years beginning after June 15, 2024, and all reporting periods thereafter.

GASB Statement No. 103, *Financial Reporting Model Improvements*

This Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability.

This Statement establishes new accounting and financial reporting requirements or modifies existing requirements related to (a) Management's discussion and analysis (MD&A) (b) Unusual or infrequent items (c) Presentation of the proprietary fund statement of revenues, expenses, and changes in fund net position (d) Information about major component units in basic financial statements (5) Budgetary comparison information (6) Financial trend information in the statistical section

The requirements of this Statement are effective for fiscal years beginning after June 15, 2025, and all reporting periods thereafter.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

NOTE 2 - CASH AND INVESTMENTS

The following summarizes the District's cash and investments:

	2024	2023
Unrestricted Cash and Investments:		
Cash on hand	\$ 1,050	\$ 1,050
Deposits with Financial Institutions	14,085,896	6,957,881
Local Agency Investment Fund	3,319,611	4,789,149
California CLASS Investment Pool	3,552,449	-
Total Unrestricted Cash and Investments	<u>20,959,006</u>	<u>11,748,080</u>
Restricted Cash and Investments		
Deposits with Financial Institutions	12,268,899	19,341,409
Local Agency Investment Fund	3,774,163	5,419,913
California CLASS Investment Pool	5,095,421	-
Total Restricted Cash and Investments	<u>21,138,483</u>	<u>24,761,322</u>
Total Cash and Investments	<u>\$ 42,097,489</u>	<u>\$ 36,509,402</u>

Cash Deposits (Collateral and Categorization Requirements)

As of June 30, 2024, the District's carrying amount of demand deposits was \$25,865,541 and the bank account balance was \$26,011,718. The difference of \$146,177 represented outstanding checks and deposits in transit. Of the total deposit balance, \$250,000 was insured by federal depository insurance and \$25,761,718 was 110% collateralized in accordance with California Government Code requirements by securities held by the pledging financial institution in the District's name.

As of June 30, 2023, the District's carrying amount of demand deposits was \$21,578,041 and the bank account balance was \$22,096,302. The difference of \$518,261 represented outstanding checks and deposits in transit. Of the total deposit balances, \$500,000 was insured by federal depository insurance and \$21,596,302 was 110% collateralized in accordance with California Government Code requirements by securities held by the pledging financial institution in the District's name.

Fair Value Measurements

GASB 72 established a hierarchy of inputs to the valuation techniques above. This hierarchy has three levels:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities.
- Level 2 inputs are quoted market prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other than quoted prices that are not observable.
- Level 3 inputs are unobservable inputs, such as a property valuation or an appraisal.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

Investment Policy

The District's investment policy authorizes investments in money market funds, certificates of deposit, US Treasury Securities, Federal agency or United States government-sponsored enterprise obligations, guaranteed investment contracts (GIC), investment pools with Joint Powers Authorities meeting the requirements of Government Code Section 53601(p), the local government investment pool administered by the State of California's Local Agency Investment Fund (LAIF), bonds issued by the local agency, registered state warrants or treasury notes or bonds of this state, and investments in repurchase agreements. The District's investment policy does not contain any specific provisions intended to limit the District's exposure to interest rate risk, credit risk, and concentration of credit risk.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity as of June 30, 2024:

Investment Type	Investment Maturities (in Years)	
	Less Than 1	Fair Value
State Investment Pool (LAIF)	\$ 7,093,774	\$ 7,093,774
Money Market Funds	2,202,821	2,202,821
California CLASS Investment Pool	8,647,870	8,647,870
Debt Reserve Fund/ Bond Project Fund (T-Fund Money Market)	489,254	489,254
Total	<u>\$ 18,433,719</u>	<u>\$ 18,433,719</u>

The following table summarizes the District's investments and maturities as of June 30, 2023:

Investment Type	Investment Maturities (in Years)	
	Less Than 1	Fair Value
State Investment Pool (LAIF)	\$ 10,209,063	\$ 10,209,063
Money Market Funds	2,107,126	2,107,126
Debt Reserve Fund/ Bond Project Fund (T-Fund Money Market)	4,712,050	4,712,050
Total	<u>\$ 17,028,239</u>	<u>\$ 17,028,239</u>

Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

The following table summarizes the Standard and Poor's credit ratings for the District's investments as of June 30, 2024:

Investment Type	Total as of June 30,2024	Minimum Legal Rating	A or Higher	Not Rated
State Investment Pool (LAIF)	\$ 7,093,774	N/A	\$ -	\$ 7,093,774
Money Market Funds	2,202,821	AAA	2,202,821	-
California CLASS Investment Pool	8,647,870	N/A	-	8,647,870
Debt Reserve Fund/ Bond Project Fund (T-Fund Money Market)	489,254	N/A	489,254	-
Total	<u>\$ 18,433,719</u>		<u>\$ 2,692,075</u>	<u>\$15,741,644</u>

The following table summarizes the Standard and Poor's credit ratings for the District's investments as of June 30, 2023:

Investment Type	Total as of June 30,2024	Minimum Legal Rating	A or Higher	Not Rated
State Investment Pool (LAIF)	\$ 10,209,063	N/A	\$ -	\$10,209,063
Money Market Funds	2,107,126	AAA	2,107,126	-
Debt Reserve Fund/ Bond Project Fund (T-Fund Money Market)	4,712,050	N/A	4,712,050	-
Total	<u>\$ 17,028,239</u>		<u>\$ 6,819,176</u>	<u>\$10,209,063</u>

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. There are no investments in any one issuer that is in excess of five percent of the District's total investments.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government agency will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government agency will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF or California CLASS).

State of California Local Agency Investment Fund (LAIF)

The District participates in an investment pool managed by the State of California known as the Local Agency Investment Fund (LAIF), which has invested a portion of the pooled funds in structured notes and asset-backed securities. LAIF's investments are subject to credit risk with the full faith and credit of the State of California collateralizing these investments. In addition, the structured notes and asset-backed securities are subject to market risk as to change in interest rates. LAIF allows local agencies such as the District to participate in a Pooled Money Investment Account managed by the State Treasurers Office and overseen by the Pooled Money Investment Board and State Treasurer investment committee. A Local Agency Investment Advisory Board oversees LAIF. The investments with LAIF are not classified for credit risk due to their diverse nature and are stated at cost, which approximates fair value. The total amount invested by all public agencies in LAIF, as of June 30, 2024 and 2023, was approximately \$178 and \$176 billion, respectively, which was invested in non-derivative financial products.

California Cooperative Liquid Assets Securities System (CLASS)

California CLASS is a Joint Powers Authority investment pool that provides public agencies the opportunity to invest funds on a cooperative basis in rated pools that are managed in accordance with state law with the primary objectives of offering Participants safety, daily and next-day liquidity, and optimized returns. The California CLASS fund is a \$1.00 NAV local government investment pool that offers daily liquidity. Investments include U.S. Agencies and Treasuries, commercial paper, collateralized bank deposits, money market funds, and more. The total amount invested by all public agencies in California CLASS, as of June 30, 2024, was approximately \$1.19 billion.

NOTE 3 - RECEIVABLES

Accounts Receivable

At June 30, 2024 and 2023, accounts receivable consisted of utility customer receivables of \$8,575,849 and \$4,363,610, respectively. The allowance for uncollectible accounts related to utility customers was \$347,577 and \$347,577, respectively.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

Other Receivables

Other receivable balance, net of allowance for doubtful accounts, currently outstanding at June 30, 2024 and 2023 was \$1,851,435 and \$442,742, respectively. Other receivables include balances from agreements with local developers, grant receivables, lease payments, and miscellaneous reimbursements. The allowance for doubtful accounts reported net of the other receivables balances were \$429,000 and \$429,000, respectively, as of June 30, 2024 and 2023.

NOTE 4 - LEASES RECEIVABLE

The District is a lessor of office space and has an agreement with others for the right to use the underlying assets owned by the District with a term of 20 years. For the fiscal year ended June 30, 2024, the District recognized \$200,783 in lease revenue and \$143,828 in interest revenue. For the fiscal year ended June 30, 2023, the District recognized \$200,783 in lease revenue and \$152,174 in interest revenue. The following summarizes the changes in leases receivable for fiscal years ended June 30, 2024 and 2023:

Year Ending June 30,	Beginning Balance	Additions	Deletions	Ending Balance	Due Within One Year
2024	\$ 2,954,445	\$ -	\$ (171,493)	\$ 2,782,952	\$ 180,267
2023	3,117,592	-	(163,147)	2,954,445	171,494

The following summarizes the future collections for leases:

Year Ending June 30	Principal	Interest	Total
2025	\$ 180,267	\$ 135,054	\$ 315,321
2026	189,491	125,831	315,322
2027	199,185	116,136	315,321
2028	209,376	105,945	315,321
2029	220,088	95,233	315,321
2030 - 2034	1,281,315	295,292	1,576,607
2035 - 2036	503,230	22,307	525,537
Total	<u>\$ 2,782,952</u>	<u>\$ 895,798</u>	<u>\$ 3,678,750</u>

The following summarizes the amounts reported as deferred inflows of resources related to leases that will be recognized as lease revenue:

Year Ending June 30	Total
2025	\$ 200,783
2026	200,783
2027	200,783
2028	200,783
2029	200,783
2030 - 2034	1,003,914
2035 - 2036	334,638
Total	<u>\$ 2,342,467</u>

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

2015 Series A & B Revenue Bonds

On June 30, 2015, the District issued 2015 Senior Lien Enterprise Revenue Refunding Bonds, Tax-Exempt Series A in the amount of \$29,840,000 and Federally Taxable Series B in the amount of \$1,115,000 (the “Bonds”). The Bonds were issued to refinance the District’s outstanding 2006 Certificates of Participation (COPs) which were issued for the purpose of financing improvements to the District’s water and wastewater systems and to refinance prior obligations. The Bonds, which closed on July 15, 2015, were an advance refunding of the 2006 COPs as the COPs were not callable until June 1, 2016. An escrow account, funded with treasury securities, was set up and used to pay the 2006 COPs. A portion of the 2006 COPs were utilized to refinance prior obligations on an advance basis. As a result, the Taxable Series B were required to refund a portion of the 2006 COPs. The cash flows required to service the 2006 COP debt was \$52,402,343 and the cash flows required to service the 2015 Senior Lien Refunding Revenue Bonds was \$49,573,943 for an economic gain of \$2,829,400 with a net present value of \$2,644,483. The deferred gain as a result of the refunding debt amounted to \$734,497. The true interest cost, which includes all annualized costs, is 3.712% for the Series A Bonds and 1.544% for the Series B Bonds.

The future debt service requirements were as follows as of June 30, 2024:

Year Ending June 30	Principal	Interest	Total
2025	\$ 1,235,000	\$ 1,014,900	\$ 2,249,900
2026	1,300,000	953,150	2,253,150
2027	1,365,000	888,150	2,253,150
2028	1,430,000	819,900	2,249,900

2019 Enterprise Revenue Certificates of Participation

On December 19, 2019, the District issued 2019 Enterprise Revenue Certificates of Participation in the amount of \$17,725,000 (the “COPs”). The COPs were issued to finance \$19,500,000 of required capital improvement projects including, but not limited to, the construction of pipeline improvements, replacement of booster pumps, lift station enhancements, construction of reservoir tanks, acquisition of emergency generators at key well sites, booster stations, and sewer pumping facilities to maintain operation during power outages. The true cost for the transaction, which included all annualized costs, is 2.99% over a thirty-year period.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

The future debt service requirements were as follows as of June 30, 2024:

Year Ending June 30	Principal	Interest	Total
2025	\$ 365,000	\$ 638,900	\$ 1,003,900

SRF Loans

In December 2015, the District submitted an application to the California State Revolving Fund Loan Program for the Regional Urban Water Augmentation Project (“RUWAP”) which included the transmission pipeline as well as the distribution system. The State bifurcated the application into separate agreements for the transmission pipeline and the distribution system.

State Revolving Fund (SRF) Loan Agreement 110 – Transmission

On January 25, 2018, the District entered into a construction installment sale agreement and grant (the “Agreement”) with the California State Water Resources Control Board (SWRCB) under the California State Revolving Fund Loan Program for the construction of the RUWAP transmission pipeline, with an initial completion date of September 30, 2020. The maximum approved amount was \$10,513,217, with a total grant component of \$3,595,789, Water Recycling Funding Program Prop 1 (“WRF Prop 1”) loan component of \$1,660,819, and Clean Water State Revolving Fund (“CWSRF”) loan component of \$5,256,609.

However, on June 29, 2020, the State amended the contract completion date to coincide with the revised completion date of the distribution system of March 30, 2022, as the distribution system will provide the revenue to pay the debt service on both the transmission and distribution of recycled water. This amendment also changed the loan repayment date, originally scheduled to commence September 30, 2021 to March 30, 2023.

Initially, the District was instructed by the State to record all funds drawn from the Agreement as loan funds. Once the project was completed, the State would provide what portion would be classified as grant funds. However, the State has since advised the District that grant funds may be recorded based on the distribution breakdown of each funds request.

Both the WRF Prop 1 and CWSRF loans accrue interest at 1.8% per annum, with principal and interest payments due annually through March 30, 2052. As of June 30, 2024, a total of \$7,595,158

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

has been received by the District of which, \$2,655,747 are grant funds and \$4,939,411 are loan proceeds.

The future principal and interest payments on the CWSRF Loan - Transmission were as follows as of June 30, 2024:

Year Ending June 30	Principal	Interest	Total
2025	\$ 105,816	\$ 68,562	\$ 174,378

State Revolving Fund (SRF) Loan Agreement 120 – Distribution

On June 27, 2018, the District entered into a second construction installment sale agreement and grant (“2nd Agreement”) with the California State Water Resources Control Board (SWRCB) under the California State Revolving Fund Loan Program for the construction of the RUWAP distribution system, with an initial completion date of March 30, 2020. The maximum approved amount was \$11,439,582, with a total grant component of \$3,698,779, Water Recycling Funding Program Prop 1 (“WRF Prop 1”) loan component of \$2,021,012, and Clean Water State Revolving Fund (“CWSRF”) loan component of \$5,719,791. Both the WRF Prop 1 and CWSRF loans accrue interest at 1.8% per annum, with principal and interest payments due annually through March 30, 2053.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

On April 20, 2020, due to the project's bid process issues and construction timing issues, the State amended the completion date of the 2nd Agreement to March 30, 2022. Again, on July 7, 2022, the completion date was subsequently amended to March 30, 2023. The amendments effectively changed the loan repayment date, originally scheduled to commence March 30, 2021 to March 30, 2024.

As of June 30, 2024, a total of \$10,600,429 has been received by the District of which, \$3,698,779 are grant funds and \$6,901,650 are loan proceeds.

The future principal and interest payments on the CWSRF Loan – Distribution were as follows as of June 30, 2024:

Year Ending June 30	Principal	Interest	Total
2025	\$ 126,196	\$ 85,509	\$ 211,705

These agreements may be terminated by written notice during construction of the Project, or thereafter at any time prior to complete satisfaction of the Obligation by the District, at the option of the State Water Board, upon violation by the District of any material provision of the Agreements after such violation has been called to the attention of the District and after failure by the District to bring itself into compliance with the provisions of the agreements within a reasonable time as

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

established by the Division. In the event of such termination, the District agrees, upon demand, to immediately repay to the State Water Board an amount equal to project funds disbursed hereunder, accrued interest, penalty assessments, and additional payments. In the event of termination, interest shall accrue on all amounts due at the highest legal rate of interest from the date that notice of termination is mailed to the District to the date all monies due have been received by the State Water Board.

Santa Cruz County Bank Installment Loan

On November 17, 2014, the Board adopted Resolution No. 2014-46 authorizing the construction of Building E at 940 Imjin Office Parkway to house the Bureau of Land Management Regional Office (BLM). On May 9, 2015, the Board adopted Resolution No. 2015-21 to approve the financing of the construction by Rabobank, N.A., which closed on August 7, 2015.

Construction costs were funded by a one-year construction loan in the amount of \$2,776,000 convertible to a 10-year term loan upon occupancy by BLM. At building completion, the interest rate would be based on 10-year London Interbank Offered Rate (LIBOR) SWAP index plus 2.5% amortized over 25 years with no prepayment penalty and an automatic six-month extension option. The automatic term extension was exercised in August 2016 due to the District not receiving final notice of completion and final certificate of occupancy from the City of Marina by the original term date of the loans which was required by Rabobank. On July 20, 2016, staff received notification that Rabobank would not be able to term out the construction loan via an interest rate swap loan due to changes in Bank policy shortly after the District's loan was consummated. Further, Rabobank would not be able to exclude a prepayment penalty clause in the terms of the converted loan.

These changes in funding instruments and loan terms required approval by the Board due to the break in terms of the previously approved funding facility. On September 19, 2016, the Board adopted Resolution No. 2016-58 amending the funding terms of the construction loan conversion but directed the General Manager to also look into other financing options and authorized him to enter into other funding agreements at his discretion. Holman Capital proposed an Installment Purchase Agreement (Agreement): a 20-year fixed rate loan secured by net revenues of the District in which the loan would be paid off at the end of the loan term. The Agreement financed the conversion of the construction loan of \$2,776,000, the Rabobank exit fee of \$13,880 and the documentation and legal fee for Holman Capital of \$10,000 for a total of \$2,799,880. The interest rate is a fixed all-in rate of 5.75% which is a taxable interest rate due to the private activity use of leasing the building. Commercial loan rates were at 5% - 7% for loans above \$250,000 at time of offer. In addition, there is no prepayment penalty which gives the District the ability to refinance the loan if rates were to decrease. Holman Capital also does not require the Final Notice of Occupancy in order to convert the construction loan. Upon review of the proposed Agreement from Holman Capital by the District's Bond Counsel, General Counsel and Financial Advisor, staff determined that the Agreement was a prudent option for the District for the conversion of the Rabobank construction loan and executed the Agreement on January 20, 2017. Included in the Agreement was an Assignment Agreement whereby Holman Capital assigned the loan to Santa Cruz County Bank.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

The future principal and interest payments were as follows as of June 30, 2024:

Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

NOTE 7 - DEFINED BENEFIT PENSION PLAN

General Information about the Pension Plans

Plan Description - The District provides benefits to eligible employees through cost-sharing multiple employers defined benefit pension plans (the Plans) administered by the California Public Employees' Retirement System (CalPERS). Members of the Plans include all permanent employees working full-time. Benefit provisions under the Plans are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website or from CalPERS Executive Office - 400 Q Street - Sacramento, CA 95811.

Benefits Provided - CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 (age 52 for employees affected by the California Public Employee's Pension Reform Act) with statutorily reduced benefits. All members are eligible for non-industrial disability benefits after 10 years of service. The death benefit is the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for the Plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2024 and 2023, are summarized as follows:

	2024		2023	
	Tier 1	PEPRA	Tier 1	PEPRA
Benefit formula	2% @ 60	2% @ 62	2% @ 60	2% @ 62
Benefit vesting schedule	5 Years	5 Years	5 Years	5 Years
Benefit payments	Monthly for Life	Monthly for Life	Monthly for Life	Monthly for Life
Retirement age	50 to 63+	52 to 67+	50 to 63+	52 to 67+
Monthly benefits as a				
% of eligible compensation	1.1% to 2.4%	1% to 2.5%	1.1% to 2.4%	1% to 2.5%
Required employee contribution rates	7%	7.75%	7%	6.75%
Required employer contribution rates	10.66%	7.68%	9.12%	7.47%

Employees Covered - The following employees were covered by the benefit terms for the Plan:

	2024	2023
Active	41	40
Transferred	13	8
Separated	33	29
Retired	17	18
Total	104	95

Contributions - Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

The contributions recognized as part of pension expense for the Plan were as follows:

	2024	2023
Contributions - employer	\$ 810,311	\$ 733,319
Contributions - employee	390,312	328,125
Total	<u>\$ 1,200,623</u>	<u>\$ 1,061,444</u>

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

The District reported net pension liabilities for its proportionate shares of the net pension liability of the Plan as follows:

	2024	2023
Proportionate Share of NPL	\$ 5,205,724	\$ 4,832,291

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2023, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2022 rolled forward to June 30, 2023 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for the Plan was as follows:

	2024	2023
Beginning Proportion	0.10327%	0.08722%
Ending Proportion	0.10411%	0.10327%
Change - Increase/(Decrease)	<u>-0.00084%</u>	<u>-0.01605%</u>

For the year ended June 30, 2024 and 2023, the District recognized a pension expense of \$1,218,359 and \$933,485.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

The District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2024		2023	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes of Assumptions	\$ 314,319	\$ -	\$ 495,169	\$ -
Differences between Expected and Actual Experience	265,959	41,257	97,042	64,994
Differences between Projected and Actual Investment Earnings	842,923	-	885,147	-
Differences between Employer's Contributions and Proportionate Share of Contributions	24,490	135,094	-	274,456
Change in Employer's Proportion	338,988	-	584,029	-
Pension Contributions Made Subsequent to Measurement Date	810,311	-	733,319	-
Total	<u>\$ 2,596,991</u>	<u>\$ 176,351</u>	<u>\$ 2,794,706</u>	<u>\$ 339,450</u>

The District reported \$810,311 as deferred outflows of resources related to contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability during the year ended June 30, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Fiscal Year Ending June 30:	Deferred Outflows/(Inflows) of Resources	
	2024	2023
2024		\$ 497,740
2025	\$ 564,039	436,783

2028	23,834	-
2029	-	-
Thereafter	-	-
Total	<u>\$ 1,610,329</u>	<u>\$ 1,721,937</u>

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

Actuarial Assumptions - The total pension liabilities in the June 30, 2022 actuarial valuations were determined using the following actuarial assumptions:

Valuation Date	June 30, 2022
Measurement Date	June 30, 2023
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Payroll Growth	2.80%
Projected Salary Increase	(1)
Investment Rate of Return	6.8% (2)
Mortality	(3)

- (1) Varies by entry age and service
- (2) Net of pension plan investment expenses, including inflation
- (3) Derived using CalPERS' membership data for all funds

Further details of the Experience Study can be found on the CalPERS website.

Discount Rate - The discount rate used to measure the total pension liability was 6.9 percent for the Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the Plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 6.9 percent discount rate is adequate, and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 6.9 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

nearest one quarter of one percent. The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class (a)	Assumed Asset Allocation	Long-Term Expected Real Return (1)(2)
Global Equity Cap Weighted	30.00%	4.54%
Global Equity NonCap Weighted	12.00%	3.84%
Private Equity	13.00%	7.28%
Treasury	5.00%	0.27%
Mortgage-backed Securities	5.00%	0.50%
Investment Grade Corporates	10.00%	1.56%
High Yield	5.00%	2.27%
Emerging Market Debt	5.00%	2.48%
Private Debt	5.00%	3.57%
Real Assets	15.00%	3.21%
Leverage	-5.00%	-0.59%
Total	100.00%	

(1) An expected inflation of 2.3% used for this period.

(2) Figures are based on the 2021-22 Asset Liability Study.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the District's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	2024	2023
1% Decrease	5.90%	5.90%
Net Pension Liability	\$ 8,186,274	7,806,885
Current	6.90%	6.90%
Net Pension Liability	\$ 5,205,724	4,832,291
1% Increase	7.90%	7.90%
Net Pension Liability	\$ 2,753,263	2,384,939

Pension Plan Fiduciary Net Position - Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

NOTE 8 - OTHER POST EMPLOYMENT BENEFITS

Plan Description

The District administers a single-employer defined-benefit post-employment healthcare plan. Dependents are ineligible to enroll, and benefits do not continue to surviving spouses.

Benefits Provided

Retirees are eligible for medical benefits if they retire at age 63+ and have 20+ years of District service. The District pays for 50% for single party premiums for retirees with a retirement date of June 30, 2019 or earlier and 75% of single party premiums for retirees with a retirement date of July 1, 2019 or later. The District pays 100% of medical, vision, and dental premiums to a retired GM who retires with at least 3 years of District Service. The Plan is open and may only be changed through negotiations between employee groups and the District. There are no automatic increases in benefits offered other than due to changes in premium rates.

Employees Covered by Benefit Terms

The benefit terms covered the following employees:

	<u>2024</u>	<u>2023</u>
Active employees	41	39
Inactive employees	5	6
Total employees	<u>46</u>	<u>45</u>

Contributions

The contribution requirements of the plan members and the District are established and may be amended by the District's Board of Directors, and/or employee associations. Currently, contributions from plan members are not required. The District pays retiree benefits (premium contributions) as they come due. For fiscal year ended June 30, 2024, the District paid \$21,239 in pay-as-you-go premiums and the estimated implicit subsidy was \$14,944 resulting in total payments of \$36,183. For fiscal year ended June 30, 2023, the District paid \$22,614 in pay-as-you-go premiums and the estimated implicit subsidy was \$15,885 resulting in total payments of \$38,499. There are no assets accumulated in a GASB compliant trust for the District's OPEB plan.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

Actuarial Assumptions

The following summarized the actuarial assumptions for the OPEB plan included in this fiscal year:

	<u>2024</u>	<u>2023</u>
Valuation Date:	June 30, 2023	June 30, 2022
Measurement Date:	June 30, 2023	June 30, 2022
Actuarial Cost Method:	Entry-Age Normal	Entry-Age Normal
Amortization Period:	20 years	20 years
Actuarial Assumptions:		
Discount Rate	3.86%	3.69%
Inflation	2.30%	2.30%
Payroll Increases	2.80%	2.80%
Trend Rate Pre-Medicare	7.40%	6.50%
Trend Rate Medicare	4.20%	5.50%
Mortality	CalPERS Tables	CalPERS Tables

Discount Rate

The discount rate used to measure the total OPEB liability at June 30, 2023 and 2022 was 3.86% and 3.69%, respectively. The District's OPEB Plan is an unfunded plan, therefore the discount rate was set to the rate of tax-exempt, high-quality 20-year municipal bonds, as of the valuation date.

Total OPEB Liability

The District's total OPEB liability was measured as of June 30, 2023 (measurement date), and the total OPEB liability used to calculate the total OPEB liability was determined by an actuarial valuation as of June 30, 2023 (valuation date) for the fiscal year ended June 30, 2024 (reporting date). The following summarizes the changes in the Total OPEB liability:

	<u>2024</u>	<u>2023</u>
Beginning Total OPEB Liability	\$ 2,033,377	\$ 1,533,102
Service cost	136,514	95,579
Interest in Total OPEB Liability	79,360	59,277
Employer implicit subsidy	(15,885)	(14,953)
Balance of diff between actual/exp experience	(752,603)	(3,424)
Balance of changes in assumptions	(328,293)	393,333
Benefit payments	(22,614)	(29,537)
Net changes	(903,521)	500,275
Ending Total OPEB Liability	<u>\$ 1,129,856</u>	<u>\$ 2,033,377</u>

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

Deferred Inflows and Outflows of Resources

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	2024		2023	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between actual and expected experience	\$ -	\$ 1,267,033	\$ -	\$ 651,056
Change in assumptions	465,153	479,240	519,344	204,125
OPEB contribution subsequent to measurement date	36,183	-	38,499	-
Totals	\$ 501,336	\$ 1,746,273	\$ 557,843	\$ 855,181

Of the total amount reported as deferred outflows of resources related to OPEB, \$36,183 resulted from District contributions subsequent to the measurement date and before the end of the fiscal year will be included as a reduction of the Total OPEB liability in the year ended June 30, 2025.

Amounts reported as deferred outflows/inflows of resources will be recognized in OPEB expense as follows:

Year Ended June 30,	2024	2023
2025	\$ (135,612)	\$ (56,714)
2026	(135,612)	(56,714)
2027	(135,612)	(56,714)
2028	(135,612)	(56,714)
2029	(135,027)	(56,714)
Thereafter	(603,644)	(52,267)
Total	\$ (1,281,119)	\$ (335,837)

OPEB Expense

The following summarizes the OPEB expense by source during the year ended June 30, 2024:

	2024	2023
Service cost	\$ 136,514	\$ 95,579
Interest in TOL	79,360	59,277
Difference between actual and expected experience	(136,627)	(81,691)
Change in assumptions	1,014	24,977
OPEB Expense	\$ 80,261	\$ 98,142

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

The following summarizes changes in the Total OPEB liability as reconciled to OPEB expense during the year ended June 30, 2024:

	2024	2023
Net OPEB liability ending	\$ 1,129,856	\$ 2,033,377
Net OPEB liability beginning	(2,033,377)	(1,533,102)
Change in net OPEB liability	(903,521)	500,275
Changes in deferred outflows	891,092	(107,481)
Changes in deferred inflows	56,507	(333,151)
Employer contributions and implicit subsidy	36,183	38,499
OPEB Expense	\$ 80,261	\$ 98,142

Sensitivity to Changes in the Discount Rate

The Total OPEB liability of the District, as well as what the District's Total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher, is as follows:

	2024	2023
1% Decrease	\$ 1,339,618	\$ 2,432,308
Discount Rate 3.86%	\$ 1,129,856	\$ 2,033,377
1% Increase	\$ 960,513	\$ 1,713,107

Sensitivity to Changes in the Healthcare Cost Trend Rates

The Total OPEB liability of the District, as well as what the District's Total OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower or one percentage point higher than current healthcare cost trend rates, is as follows

	2024	2023
1% Decrease	\$ 926,308	\$ 1,641,424
Trend Rate 7.4%	\$ 1,129,856	\$ 2,033,377
1% Increase	\$ 1,399,003	\$ 2,553,591

NOTE 9 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is a member of the Association of California Water Agencies Joint Powers Insurance Authority (JPIA). JPIA is an intergovernmental risk-pooling self-insurance authority, created under provisions of California Government Code Sections 6500 et. seq. The purpose of JPIA is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage.

Marina Coast Water District
Notes to the Basic Financial Statements
For the Years Ended June 30, 2024 and June 30, 2023

On June 30, 2023, the District's participation in the self-insurance programs of JPIA is as follows:

- General, Automobile, Employment Practices & Public Officials' Liability: Broad coverage against third-party claims for the District, its directors, employees, and volunteers. Covered up to the following limits: the JPIA pools for first \$5 million and purchases excess coverage with limit up to \$55 million per occurrence with aggregated policy limits.
- Property Loss: Covered up to replacement value with a \$10,000 deductible per occurrence on scheduled buildings, fixed equipment and contents, actual cash value on scheduled mobile equipment with a \$1,000 deductible per occurrence and actual cash value on scheduled vehicles with a \$500 deductible per occurrence. JPIA is self-insured up to \$10,000,000 per loss and has purchased re-insurance coverage up to a \$500,000,000 limit per occurrence. Scheduled fixed equipment is covered for Accidental Mechanical Breakdown up to sublimit of \$100,000,000 with deductible \$25,000.
- Cyber Liability: Including Cyber Security up to \$2,000,000 per member and \$5,000,000 Policy Aggregate Limit. Cyber Liability Deductible varies from \$75,000 to 100,000 depending on District Total Insured Values.
- Employee Dishonesty/Crime Supplement: Covered up to \$100,000 per occurrence with a \$1,000 deductible for employee dishonesty, forgery or alteration and computer fraud. The program covers all employees, the Board of Directors, and the Treasurer.

The District continues to carry commercial insurance for all other risks of loss, including workers' compensation, and employee health and accident insurance. Settled claims have not exceeded insurance coverage in any of the past three fiscal years.

Separate financial statements of JPIA can be obtained at 2100 Professional Drive, Roseville, CA 95661 or <http://www.acwajpia.com/FinancialStatements.aspx>.

NOTE 10 - COMMITMENTS AND CONTINGENCIES

In the normal course of operations, various claims have been filed against the District. In the opinion of the District's management and legal counsel, the claims will not have a material impact on the basic financial statements.

The District has received state grants for specific purposes that are subject to review and audit by the state government. Although such audits could result in expenditure disallowances under grant terms, any required reimbursements are not expected to be material.

OTHER INDEPENDENT AUDITOR’S REPORTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Directors
of the Marina Coast Water District
Marina, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Marina Coast Water District (the "District") as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 15, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses and significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
