

Retrofit With Free High-Efficiency Faucet Aerators and Showerheads

Slow the Flow

One of the simplest and certain ways to lower your water use is by reducing the flow of water from your faucets and showerheads. After retrofitting, and at each water use event, you will use less water than the day before you retrofitted.

We Have the Following Free Devices in Stock

Aerators

- Dual Spray Swivel Faucet Aerator by Niagara Conservation in Chrome/ White (1.5 GPM)
- Standard Needle Spray Faucet Aerators (0.5 GPM, for commercial restrooms)
- Pressure Compensated Bubble Spray Aerators by Niagara Conservation (1.0 GPM)
- Tri-max™ 3 Flow Rate Needle Spray Aerator by Niagara Conservation (Adjustable flow rates- 0.5 GPM / 1.0 GPM / 1.5 GPM)

Showerheads

- Earth® Showerhead with Soap & Soak® by Niagara Conservation in Chrome (1.5 GPM)

- Handheld Niagara Earth Massage Chrome Showerhead (1.5 GPM)
