Marina Coast Water District

DATE: June 15, 2020

TO: Board of Directors

FROM: Kelly Cadiente, Director of Administrative Services

SUBJECT: Budget Summary

Introduction.

On behalf of the District staff, I am pleased to present the Fiscal Year 2020-2021 Budget. This budget was developed with a focus on cost containment of system operations and infrastructure needs and is designed to assist in meeting the strategic goals of the Board.

The purpose of this Budget Summary is to provide an overview of the FY 2020–2021 Draft Budget document and the key assumptions used in developing this Budget.

The Draft Budget includes 6 separate cost centers:

- Marina Water
- Marina Wastewater Collection (Sewer)
- Ord Community Water
- Ord Community Wastewater Collection (Sewer)
- Regional Urban Water Augmentation Project (RUWAP)
- Regional Desalination Project

In accordance with District Ordinance No. 43, the District maintains separate cost centers to ensure that revenues and expenses are appropriately segregated and maintained for the Marina systems, the Ord Community systems, and the accruing costs for the Regional Urban Water Augmentation Project (RUWAP).

District costs that are not dedicated to a specific cost center are shared among the four primary cost centers - Marina Water, Marina Sewer, Ord Community Water, and Ord Community Sewer. Sharing of these expenses, in turn, creates efficiencies and cost savings for administrative functions for the two service areas that would otherwise not be realized. The District uses the expense ratio method to allocate these shared expenses which represent approximately 15% of the District's Operating Expenses. This approach is also referred to by "as all others" – essentially that general benefit functions mirror how the first 85% of the District's costs are accrued. These costs include Admin salaries and benefit costs, Board related costs, information technology related costs, accounting services, rate study costs etc. These functions serve the District as a whole and cannot be reasonably allocated on a direct basis or by one of the above metrics. The District contracted with Carollo Engineers in 2017 to review the District's website at following link:

http://www.mcwd.org/docs/financials/MCWD%20Cost%20Allocation%20Plan%20(f)%2026Feb.pdf

For FY 2020-2021, the assigned percentages are as follows:

| Marina Water | 24% | Ord Community Water | 56% |
|--------------|-----|---------------------|-----|
| Marina Sewer | 6% | Ord Community Sewer | 14% |

Over the past several years, direct operating expenses throughout the Ord Community has increased causing its allocation percentages of shared expenses to increase.

The following tables are historical and current calculations of general allocation percentages:

¹Total Operating Expenses less depreciation/amortization. RUWAP operating expenses are included in Ord Water cost center for % allocation purposes for FY 2016-17 through FY 2020-21.

| All Cost | FY 2014-15 | FY 2016-17 | FY 2015-16 | FY 2017-18 | FY 2016-17 | FY 2018-19 | FY 2017-18 | FY 2019-20 | FY 2018-19 | FY 2020-21 |

<u>Assumptions.</u> The key assumptions used to build this Budget include:

- Projected revenues in Marina and Ord Systems are based on current customer accounts and projected development activity. In addition, the District conducted a 5-year rate study which proposed a 6% water rate increase and a 7% sewer rate increase for Marina customers and a 5% water rate increase and 6% sewer rate increase for Ord customers.
- Proposed monthly rates are based on the 5-year rate study conducted in 2017-2018 and approved by the Board January 22, 2018. Water rates consist of a fixed charge and commodity rates.
 - The fixed charge generates the needed revenue to cover the District's fixed costs which include:
 - Base Costs operating and capital costs incurred by the water system to provide a basic level of service to each customer.
 - Peak Costs those operating costs incurred to meet peak demands in excess of base demand which include basic water supply and distribution costs.
 - Customer Costs Fixed expenditures that relate to operational support such as accounting, billing, customer services, administrative and technical support.
 - Service Costs Meter maintenance costs and capacity related costs including debt service.
 - The commodity rates generate revenue to cover base, peak and customer costs directly related to the production and distribution of water production. The rate study included the change from a 3-tier system to a 2-tier system for commodity rates. The rate study can be accessed on the District's website by clicking on the following link: http://www.mcwd.org/docs/financials/MCWD%202018%20CoS%20Rate%20Study%2 OFinal%20Report.pdf.
- Wastewater collection rates consist of fixed costs to collect and transmit to the Monterey One Water Agency (M1W). The rate is calculated based on the total projected costs of the collection system (Base Costs and Customer Costs) divided by the projected equivalent dwelling units (edu) of the District.
- Proposed monthly rates with the proposed rate increases for the Marina customers and for Ord Community customers as follows:

| Water Rate (monthly) | Marina | Ord Community |
|--------------------------------------|---------|---------------|
| Meter Service Charge | \$26.22 | \$45.32 |
| Tier 1 (0 - 10 hcf) | 3.51 | 4.54 |
| Tier 2 (10+ hcf) | 5.36 | 8.84 |
| Flat Rate Billing | N/A | 179.70 |
| Average monthly bill (10 hcf) | \$61.32 | \$90.72 |
| Wastewater Collection Rate (monthly) | Marina | Ord Community |
| Flat Rate | \$16.63 | \$35.90 |

Effective January 1, 2021

- The average combined water and wastewater collection monthly invoice increased 2.6% for Central Marina and 5% for the Ord Community, respectively.
- Projected revenues and funding sources of \$45.347 million for all cost centers; Marina Water \$7.622 million, Marina Sewer \$1.729 million, Ord Community Water \$14.513 million, Ord Community Sewer \$10.212 million, and RUWAP \$11.271 million which represents loan proceeds from the State Revolving Fund which funded in April 2018.
- Projected expenses and CIP of \$52.715 million for all cost centers; Marina Water \$8.157 million, Marina Sewer \$1.204 million, Ord Community Water \$21.117 million, Ord Community Sewer \$9.732 million, and \$12.505 million for RUWAP.
- Projected expenses include the District's Groundwater Sustainability Agency activity which is tracked under the Water Resources Department.
- Scheduled debt (principal/interest) payments on the 2015 \$29.840 million bond for Marina and Ord Community service area that advance refunded the 2006 bond to take advantage of lower interest rates.
- Scheduled debt (principal/interest) payments on the 2019 \$17.725 million bond for Marina and Ord Community service area that fund capital equipment and capital improvement projects of the existing systems.
- Scheduled debt (principal/interest) payments on the \$2.800 million 2017 Santa Cruz County Bank Loan for the conversion of the Rabobank N.A. Construction Loan for the construction of the building leased to the Bureau of Land Management (BLM). Lease revenues from BLM will fund the debt service over the life of the loan.
- Capital replacement reserve funding for Marina and Ord Systems per Board Policy \$0.200 million for Marina Water, \$0.100 million for Marina Sewer, \$0.200 million for Ord Water and \$0.100 million for Ord Sewer.
- \$33.913 million of Capital Improvement Projects; Marina Water \$3.811 million, Marina Sewer \$0.129, Ord Community Water \$10.664 million, Ord Community Sewer \$7.184 million and RUWAP \$12.125 million.
- Salaries adjusted 2.9% for Cost of Living Adjustment (COLA). MOU agreements with District employee groups require the COLA be based on the February Consumer Price Index.
- Support for a staff of 45 positions:
 - Administration 17
 - Operations & Maintenance 17
 - Laboratory 1
 - Conservation 1
 - Engineering 7
 - Water Resources 2

- Increased healthcare costs based on information received as of February 2020 (a 10% increase has been included).
- Continuation of various conservation rebate program costs.
- Cost of new technology (upgrades per the District's Technology Plan).
- Annual maintenance of facilities for Operations & Maintenance.

Prior Year Accomplishments. In FY 2019-2020 the District recognized the following accomplishments:

- In May 2018, the District performed its second Aerial Electromagnetic Survey of the groundwater basin to further its sustainable groundwater management efforts. The survey was following two-years of normal rainfall to assess how conditions may have changed following the historic drought conditions that preceded the first AEM. The second AEM was also expanded into areas that were not originally covered in the prior AEM work. The final AEM report from the second survey was completed this past year which confirmed significant volumes of water south of the Salinas River that must be protected as part of our groundwater sustainability plan. Additionally, the new AEM data is being used to develop aquifer storage and recovery projects and to identify future well site locations that will be a part of the District's Groundwater Sustainability Plans.
- This past year, the employees and management were successful in negotiating new four-year contracts for both the Teamsters Union and the Employee Association. The working relationship between the employees and management continues to be healthy and strong and the new contracts will provide continued stability for the next four-years.
- Annexation was completed in July 2019 giving ratepayers within the Ord Community the ability to both vote for and run for the District's Board of Directors and thereby receive direct representation from the Board.
- Construction of the RUWAP Transmission Pipeline was substantially completed in January 2019 and the reservoir construction was completed in July 2019. The completion of M1W's Pure Water Monterey Advanced Water Treatment Plant in order to provide advanced treated water to our customers as well as to the Pure Water Monterey was also completed in FY 2019-2020 and is producing water.
- MCWD's 2018 Comprehensive Annual Financial Report (CAFR) was awarded the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA). The Certificate of Achievement is the highest form of recognition in governmental accounting and financial reporting. This marks the eleventh consecutive award for MCWD, indicative of our efforts to be transparent and prudent with our financial reporting. The District is confident that the 2019 CAFR, submitted to the GFOA in December 2019, will also receive the award.

- On December 19, 2019, the District issued \$17.725 million of Enterprise Revenue Certificates of Participation at a premium. At closing, the District received funding in the amount of \$19.500 million for required capital improvement projects including, but limited to the construction of pipeline improvements, replacement of booster pumps, lift station enhancements, construction of reservoir tanks, acquisition of emergency generators at key well sites, booster stations, and sewer pumping facilities to maintain operation during power outages.
- In late 2019, the District began immediate design, procurement, and installation of 7 permanent generator sets for the water and wastewater systems to keep sites online, even in times of extended power outages as part of the PG&E Public Safety Shutoff Program.
- In January 2020, the District presented its third Year in Review for FY 2018-2019 as part of the District's ongoing commitment to communication, transparency, and collaboration with the community.
- MCWD is firmly committed to the idea that the only way we will achieve a sustainable water supply for our region is if we work together. That is why the District worked with Monterey One Water on a cooperative project to build the necessary pipes to deliver additional supplies to the region, has cooperative agreements with the Salinas Valley Basin Groundwater Sustainability Agency to build the plans to better manage our groundwater supplies, and is actively involved with regional purveyors to identify workable regional solutions to our water supply needs through the expansion of the Pure Water Monterey Project. This year MCWD entered into a settlement with Cal Am that ends past disagreements over the Regional Desal Plant. As a result, MCWD's is now more focused on moving forward on cooperative regional water supply efforts.
- On July 1, 2020, FORA will be officially terminated. In preparation, MCWD staff has been working over the past year to secure Service Agreements with all the jurisdictions that were allocated water supplies through FORA. While there has been significant progress made this past year on the Agreements, we foresee this process continuing into the upcoming FY 2020-2021. Once approved, the Agreements will help solidify water allocations, clarify the relationship of groundwater sustainability efforts on allocations, and clarify the requirements for moving forward on future water supply augmentation efforts.

| Project: | Beach Road Pipeline |
|-------------|---------------------|
| Project No: | MW-0111 |
| Cost Center | Marina Water |

Project Description

This project entails the construction of a new 12" parallel pvc pipeline in Beach Road from De Forest Road to Del Monte Blvd.

Project Justification

The pipeline is needed to improve reliability for existing fire flow deficiencies in Central Marina.

| Project: | Carmel Avenue Sewer Main Improvement Project |
|-------------|--|
| Project No: | MS-0202 |
| Cost Center | Marina Sewer |

Project Description

This project is to replace under capacity 8-inch and 12-inch diameter sanitary sewer pipeline with new 15-inch diameter pipe in Carmel Avenue between Del Monte Boulevard and Sunset Avenue.

Project Justification

This 821 linear feet of existing sewer pipeline was identified as under capacity by hydraulic modelling in the 2005 Marina Wastewater Collection System MasterPlan and the draft 2019 Sewer Master Plan.

Replacement of this facility will result in lower potential for sanitary sewer overflows.

| Project: | D-Zone Booster Pump Replacement |
|-------------|---------------------------------|
| Project No: | OW-0306 |
| Cost Center | Ord Community Water |

Project Description

Replace one undersized D-Zone booster pump with a larger pump, new motor and motor control center.

Project Justification

Currently one of the D-Zone pumps is undersized and near the end of its usefule life. Replacing it with a larger pump and motor will also extend the life of the other existing pump. The motor control center is also in need of replacement.

| Project: | Ord Village Lift Station & Force Main Improvements |
|-----------------|--|
| Project Number: | OS-0147 |
| Cost Center: | Ord Community Sewer |

Project Description

This project includes reconstructing the force main in a new alignment and relocating the existing lift station to a location east of Highway 1.

Project Justification:

The exisiting lift station & force main has burst many times causing spills and necessitating point repairs. The existing lift station, located west of Highway 1 use to be on Army controlled land

that was transferred to the CA State Parks and is now considered environmentally sensitive land. Additionally, relocating the lift station will eliminate two Highway 1 pipeline crossings.

The existing pumps were replaced with Flygt pumps in 2016.

| Project: | Imjin Lift Station & Force Main Improvements - Phase I |
|-----------------|--|
| Project Number: | OS-0205 |
| Cost Center: | Ord Community Sewer |

Project Description

The first phase of this project includes constructing another wetwell, installing two Flygt pumps with all accessories and appurtenances and space to add a third pump.

The second Phase will be to install the third pump and replace the forcemain in conjunction with the Imjin Road widening project.

Project Justification:

The exisitng lift station and forcemain can't handle all the anticipated wastewater flows from East Garrison, UCMBEST, Marina Airport, Existing Marina lift Station as was stated in the Ord Community Wastewater Master Plan; the project will be split into two phases and is necessary to accommodate near to long term future development

| Project: | Hatten & Booker Lift Station Improvements |
|-----------------|---|
| Project Number: | OS-0152 |
| Cost Center: | Ord Community Sewer |

Project Description

Replacement of Hatten & Booker wastewater lift stations.

The Neeson Lift Stations was rebuilt in-house.

Project Justification:

The existing lift stations are reaching the end of their service life. Capacity increases are not required.

| Project: | Gigling Lift Station & Force Main Improvements |
|-----------------|--|
| Project Number: | OS-0203 |
| Cost Center: | Ord Community Sewer |

Project Description

This project includes reconstructing the existing lift station and force main.

Project Justification:

The exisiting force main has broken in the past causing spills and necessitating point repairs. The force mwain needs to be replaced along a new alignment.

The lift station is a wet-pit/dry-pit configuration that needs to be replaced with a wet-pit submersible pump setup.

The existing pumps were replaced with Flygt pumps in 2016.

| Project: | A1 & A2 Zone Tanks & B/C Booster Station |
|-----------------|--|
| Project Number: | GW-0112 |
| Cost Center: | Ord Community Water; Marina Water |

Project Description

Two A-Zone storage tanks with a total usable storage capacity of 3.2 Million Gallons, B-Zone and C-Zone Booster Pump Station, and associated piping and facilities. The project location is on the CSUMB main campus northwest of the interesection of Inter-Garrison Rd and 6th Ave. CSUMB will require architectural treatments not to exceed 10% of the cost of the tanks and buildings. Tank construction is assumed to be steel. A prestressed concrete tank would entail a 33% increase in cost.

Project Justification

The District has minimal "A" Zone storage capacity. The A1/A2 Zone Tanks are to provide operational, fire, and emergency water storage for Zone A in the Ord Community and Central Marina. The B and C booster pumps will pump water from the A zone tanks to Zones B and C. The facilities currently serving these functions are over sixty years old and are approaching the end of their useful life.

| Project: | California Avenue and Imjin Pkwy Pipeline - Abrams Dr to Marina Heights Dr |
|-----------------|--|
| Project Number: | GW-0305 |
| Cost Center: | Ord Community Water; Marina Water |

Project Description

This project entails the construction of approximately 2,550 feet of 24" diameter pipeline in Imjin Parkway and California Avenue from Abrams Drive to Marina-Heights Drive.

Project Justification

This project identified in the Marina Heights Master Plan will reroute A zone transmission around the Sand Tank and existing B/C booster pump station to feed the new A1/A2 tanks and new

B and C booster pumps that will serve the B and C pressure zones.

| Project: | B2 Zone Tank |
|-----------------|-----------------------------------|
| Project Number: | GW-0112 |
| Cost Center: | Ord Community Water; Marina Water |

Project Description

One B-Zone storage tank with a total usable storage capacity of 2.5 Million Gallons, associated piping and facilities.

The project location is west of the B Tank on the CSUMB main campus northwest of the interesection of Colonel Durham St. and 6th Ave.

Tank construction is assumed to be steel. A prestressed concrete tank would entail a 33% increase in cost.

Project Justification

The District has minimal "A" Zone storage capacity. The A1/A2 Zone Tanks are to provide operational, fire, and emergency water storage for Zone A in the Ord Community and Central Marina.

The B and C booster pumps will pump water from the A zone tanks to Zones B and C. The facilities currently serving these functions are over sixty years old and are approaching the end of their useful life.

| Project: | Human Machine Interface (HMI) pump station installation |
|-----------------|---|
| Project Number: | WD - 0309 |
| Cost Center: | Water/Sewer District Wide |

Project Description

This project is for the installation of Human Machine Interfaces (HMI) at District water and sewer pumping stations to allow visual and local control.

Project Justification

Currently none of the water and sewer sites have HMI's to allow the operations staff to control the station using automatic functions locally at that station.

If a station loses radio signal, or the SCADA master goes down, the Operations staff are not able to control the stations in an automatic state.

| Project: | Regional Urban Water Augmentation Project - Distribution System |
|--------------|---|
| Project No: | RW-0174 |
| Cost Center: | Recycled Water |

Project Description

This project is for completing the Recycled Water distribution laterals off of the transmission main at Coe Ave., Ninth Ave, Abrams Dr., Imjin Rd., Reservation Rd.

Carmel Ave., and Beach Rd. To tie in existing irrigation systems ready for recycled water.

Project Justification

The design and construction needs to be completed in order to implement Recycled Water as a water source to meet the needs of MCWDs' customers and to augment the current groundwater supply source for FORA.
