

Recycled Water Rates, Fees, and Charges

Rates, fees, and charges for recycled water service support the delivery of a safe, reliable, and sustainable alternative water supply. They are based on the District's adopted rate study and help fund system operations, maintenance, infrastructure improvements, water quality monitoring, and regulatory compliance.

Unless otherwise specified, the listed rates, fees, and charges are effective July 1, 2026. Customer billing is processed once each month based on applicable service charges, metered usage, and other account-related fees.

Charges will remain in the current customer's name until the District is notified of the intent to discontinue service. For billing questions, please contact the Billing Department at 831-384-6131, option 2.

Recycled Water Schedule of Rates

Consumption Charge (\$/HCF)	Amount in \$
Per HCF	7.83

Fixed Monthly Service Charge

Meter Size	Amount in \$
5/8" & 3/4"	60.78
1"	86.17
1.5"	149.69
2"	225.91
3"	467.22
4"	822.86
6"	1,673.87
8"	3,579.09
10"	5,175.65
12"	6,525.45

Capacity Charges (Effective July 1, 2026)*

Type of Charge	Amount in \$
Recycled Water Capacity Fee	5,725

*Per District Ordinance 6.08.090 Section B, each July 1st, Capacity Charges will be adjusted by an increment based on the change in the Engineering News Record-City Average Construction Index (CCI) over the prior year, using the index published for the first quarter of the calendar year, and rounding to the nearest \$25. The average CCI for the first quarter of 2026 is 2.72 %.
